SIR

In forwarding herewith the entire correspondence ending with Sakleshpur Municipal President's report No C 89-33 dated 28-3-34, re the extension of the boundaries of his municipality, I have the honour to state as follows -

The President reports that the boundaries of the municipality were defined in 1916, that since then, an extension has sprung up to the north, that the layout of an extension to the west is under contemplation and that the inclusion of certain S Nos , near the shandy grounds to the east is necessary as the merchants keep goods leviable with octroi on these lands and try to smuggle them into the town The question of extending the boundaries having been placed before the Municipal Council, they have resolved at their meeting held on 15-12-1933 that the boundaries of the municipality be extended as per sketch submitted by the Sanitary Inspector/ The President has submitted a sketch showing the existing and proposed boundaries and copies of the English and Kannada proclamation
